POT AND PAN  
SOAP

## PRODUCT USES

A low foaming detergent to be used in pots and pan sinks. May be used on all dishes and cooking containers. Works well on greasy pots and pans. Can also be used as a pot, pan and utensil soak.

## OPERATOR BENEFITS

- Keeps dirt particles in suspension, including light grime in pots and pans.
- Facilitates rinsing by improving water runoff

## DIRECTIONS FOR USE

Add detergent to sink while water is running to build suds. You do NOT need suds to clean! If using a dispenser, it should be set at 1/2 ounce per gallon of water in the sink. Adjustments may be made to the dilution ratio, depending on amount of grease. Wash pots, pans or dishes in customary manner and rinse with hot water. It may be necessary to change water if it gets too dirty.

USED: Utensils, Pot and Pan Soak, 8 : 1 Dilution

## HANDLE EQUIPMENT
